Chief Executive Officer

Saleh bin Abdullah bin Ali

Founder & CEO of SETCCO

At SETCCO, we believe true industrial excellence is built on trust, discipline, technical capability, and long-term commitment to our clients' success.

Our vision is clear: to be a trusted Saudi industrial partner for the oil and gas drilling sector — delivering reliable manufacturing solutions, high-quality equipment, and responsive technical support for the most critical operations.

In our industry, quality is not optional, safety is not negotiable, and delivery is a responsibility. That is why we continue to invest in our people, systems, and manufacturing standards — so that every product reflects the confidence our clients place in us.

Our strength lies not only in what we manufacture, but in how we work: with accountability, precision, and transparency. Aligned with Vision 2030, we are committed to localizing specialized oilfield manufacturing and building strong national capabilities.

Our ambition is simple: to be respected for our quality, trusted for our commitments, and recognized as a reliable partner in the oil and gas supply chain.

My sincere appreciation goes to our clients, partners, and team members who share our belief in excellence.

Mission, Vision & Core Values

Vision:

To be trusted Manufacturing & Maintenance partner in Oil & Gas, Industries delivering innovative Products and services, in Saudi Arabia with a high level of customer satisfaction & Reliability

Mission:

To deliver high quality of products and services and commitment on time delivery at a competitive price,

Core Values:

Safety, Integrity, Customer focused and high level of quality & compliances . Employee Skill Development , and we Respect people as well as Environmental Caring.

Reliability employee development.

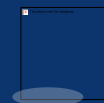

Executive Summary

SETCCO started its journey in 2011 and continues to grow with a reputation for excellent customer service.

Projects are handled according to client requirements, supported by technical-team ideas and smart solutions.

SETCCO leadership is guided by experienced management with end-to-end process knowledge, especially in drilling-rig manufacturing.

Company & Business Description

SETCCO is a specialized industrial manufacturer and technical service provider for the oil & gas drilling sector, delivering engineered solutions, certified fabrication, and field-ready support services.

Core Business Areas:

01

DNV-certified baskets and drilling structural equipment manufacturing

02

API-certified OEM technical service provider

03

CAT III & CAT IV inspections and refurbishments

04

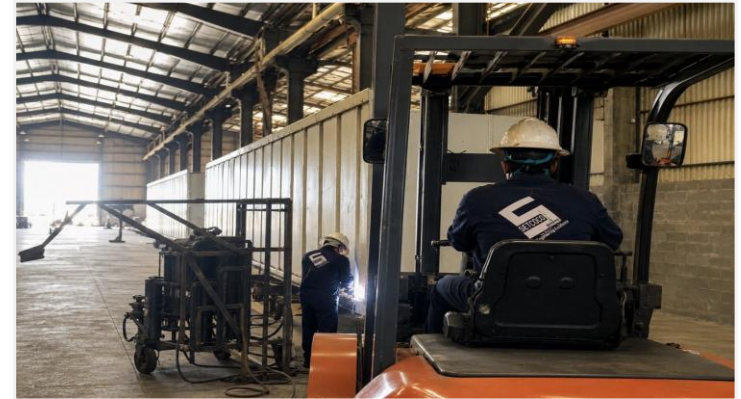

Frac tanks and related equipment upgrades

05

Mud systems, mud tanks, and frac tank manufacturing

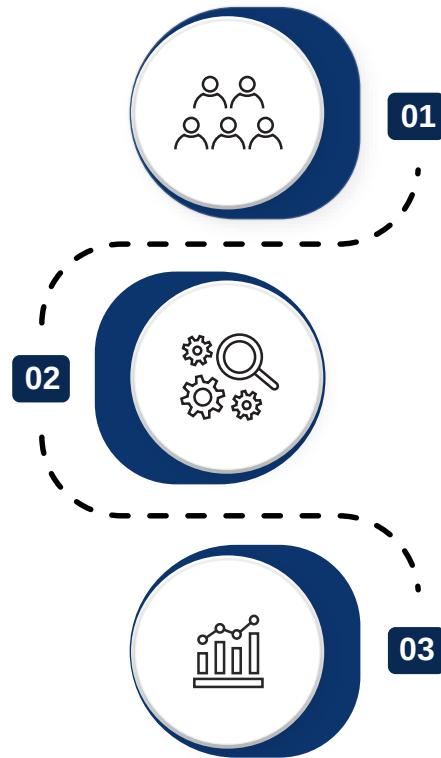

06

Supply and rental services for drilling operations

Our Organization Plan & Strength

Through effective manpower planning and cross-functional collaboration, SETCCO has maintained safe and successful project delivery, even during challenging shutdown periods.

Our organizational structure is designed to support efficient project execution, clear accountability, and coordinated teamwork across all departments.

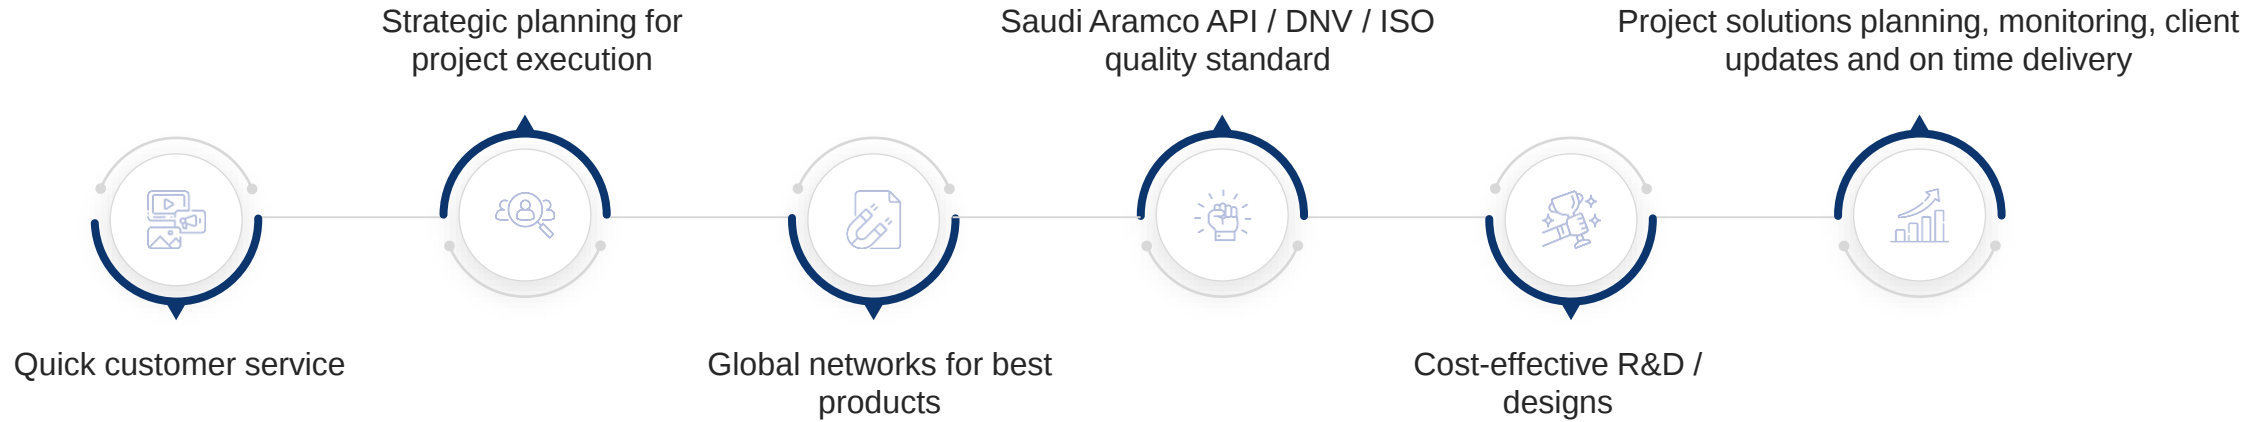

This disciplined structure strengthens SETCCO's ability to grow, execute complex industrial projects, and contribute to local content development, in alignment with Saudi Vision 2030 and the ambitious national transformation led by His Royal Highness Crown Prince Mohammed bin Salman.

Skilled People. Structured Delivery. Stronger Local Content.

Why SETCCO

SETCCO R&D

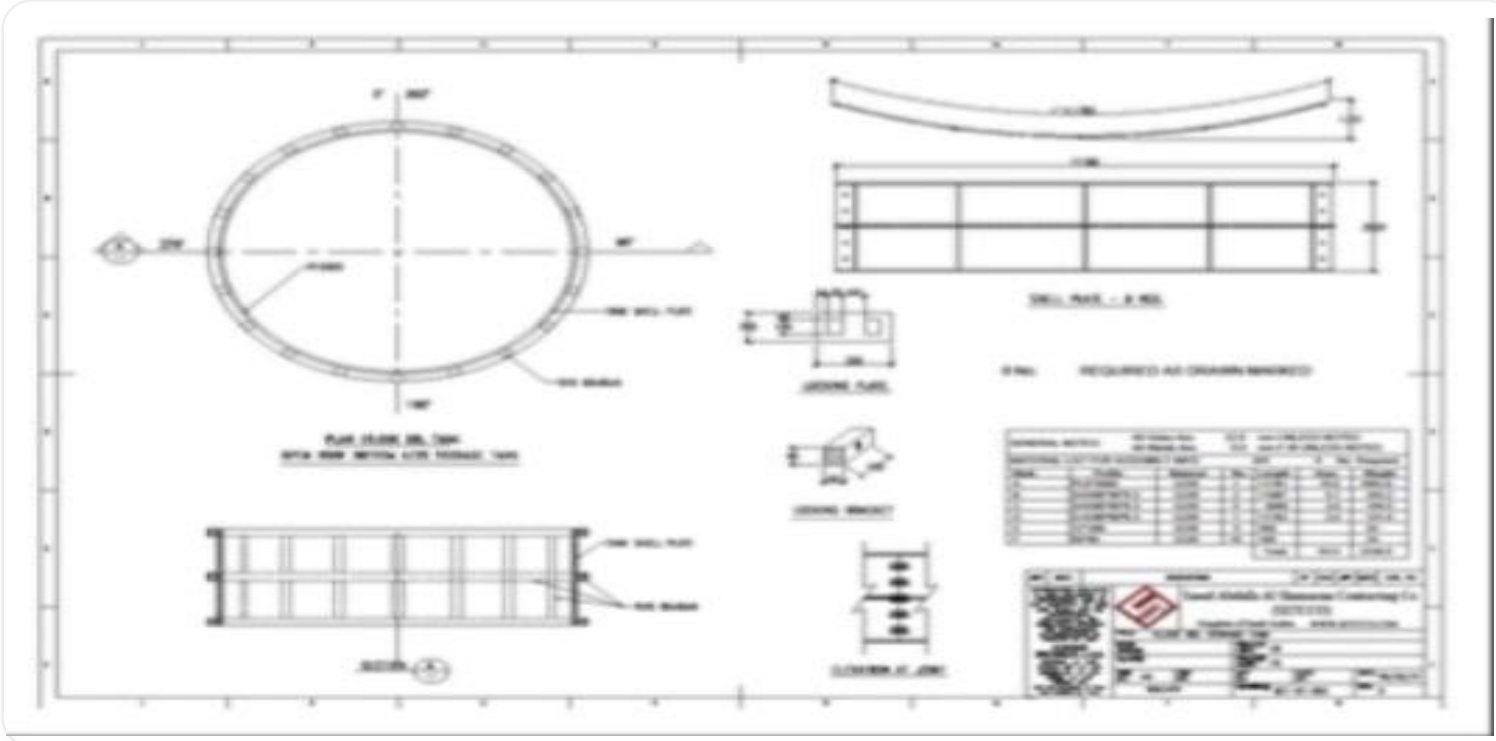

INNOVATIVE IDEAS AND TECHNICAL SOLUTIONS

SETCCO Research & Development team developed a

15,000 BBL

open-top, bottomless mud storage tank concept, designed to support high-volume drilling fluid storage with practical fabrication, cost efficiency, and field adaptability

Milestone Projects

2000 BBL Mud System

SETCCO successfully completed multiple 2000 BBL mud system projects for Saudi Aramco's leading drilling operator H&P in 2024.

1500 BBL Cement Systems

INNOVATIVE IDEAS AND TECHNICAL SOLUTIONS

SETCCO successfully completed multiple 1500 BBL cement system tank projects for Saudi Aramco's leading drilling operators in 2024.

Super Sack Handling System

SETCCO successfully completed multiple super sack handling systems for mud reserve, mud active and cement systems with specially designed hoist structures.

The scope also includes 500 BBL diesel tanks for drilling rig operations and gasoline tanks.

CAT IV & CAT III Services / Frac Tank Upgrading / 6000 BBL Mud System

Selected milestone works covering
CAT IV and CAT III services, for
KCAD 2018

6000 BBL Mud System - ADC

SETCCO successfully completed a

6000 BBL

mud system upgrade for Saudi Aramco's leading drilling operator ADC (Arabian Drilling Company) in 2022.

Our Products – DNV-Certified Baskets

SETCCO manufactures DNV-certified offshore baskets in accordance with DNV-GL standards, approved drawings, procedures, and client requirements, ensuring high levels of safety, quality, and reliability.

Our Products – DNV Baskets

SETCCO manufactures DNV-certified offshore baskets in accordance with DNV-GL standards, approved drawings, procedures, and client requirements, ensuring high levels of safety, quality, and reliability.

Frac Tanks MFG & Upgrade

SETCCO provides manufacturing, refurbishment, and upgrade solutions for frac tanks and containment systems, ensuring durability, operational reliability, and compliance with oilfield requirements.

OUR PRODUCTS

Drilling Rig Structures & Accessories

SETCCO is a Saudi industrial manufacturer specialized in oil & gas drilling equipment, MD Systems, mud tanks, rig components, and maintenance solutions — supporting the energy sector through quality, reliability, and local manufacturing excellence.

Drilling Rig Equipment

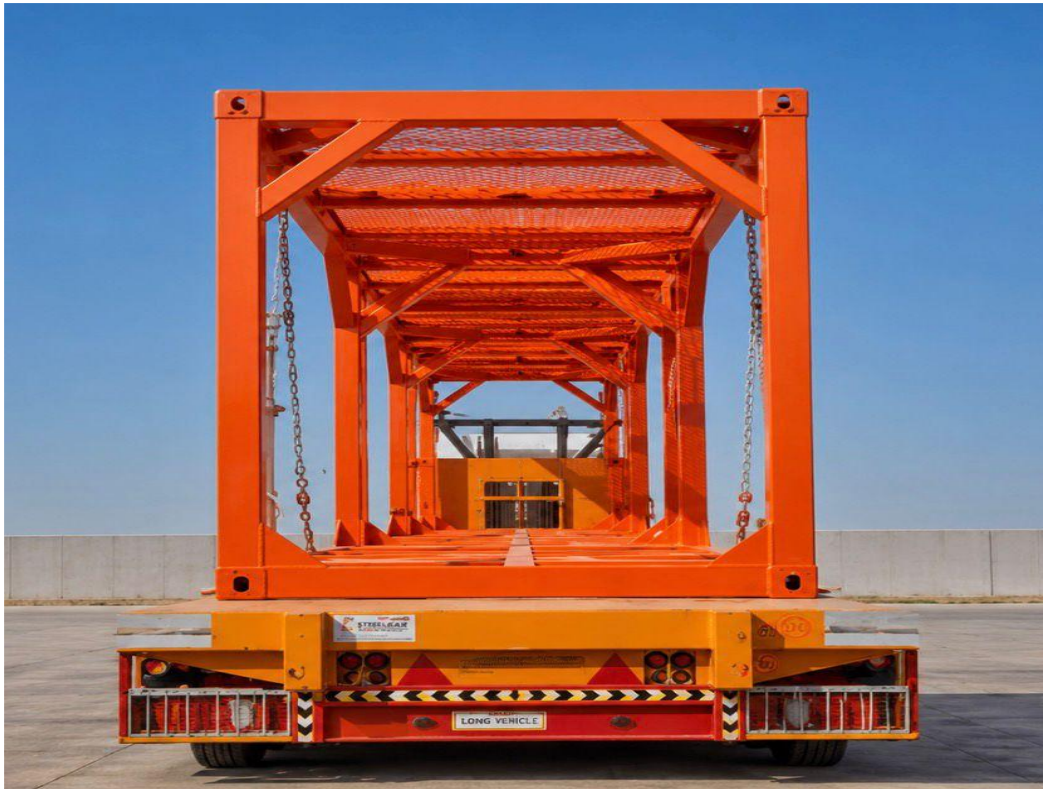

SETCCO manufactures structural drilling rig equipment and accessories in accordance with project specifications and industry requirements, including mud tanks, diesel tanks, load-test systems, rig components, and customized steel structures.

Our solutions are built to support drilling operations with reliable fabrication quality, durable materials, and Saudi industrial manufacturing excellence.

ONSHORE CARGO CONTAINERS

ONSHORE CARGO CONTAINERS Engineered and fabricated by SETCCO to serve demanding drilling, oilfield, and industrial operations. Our cargo containers are built with high fabrication standards, durable structural design, and practical field functionality to ensure reliable performance from workshop to site delivery.

OUR PRODUCTS

Offshore Baskets / DNV Certified Baskets

SETCCO provides robust and certified offshore baskets engineered for demanding oilfield and offshore environments. Built with high-strength steel and manufactured to meet DNV 2.7-1 requirements, our baskets ensure safe lifting, reliable transportation, and long-term durability in harsh operating conditions.
